

## Asking a question to be considered at NHS Cheshire and Merseyside Primary Care Committee meetings

We welcome questions from members of the public. To be considered during a meeting of the Primary Care Committee, questions must be submitted by midday three days ahead of the date of the meeting.

Questions submitted after this deadline will not be considered during the meeting, but a written response will be prepared and, where possible, published via the NHS Cheshire and Merseyside website.

We kindly request that questions are relevant to the meeting agenda. Every effort will be made to include and answer as many public questions as possible at each meeting, however time dedicated to answering questions will need to be balanced with the time needed for considering all items on the meeting agenda. Priority will be given to those questions that are relevant to the items on the agenda.

All questions that are not addressed in the meeting will be followed up with a written response. If a response to a question requires information to be collated that is not readily available or possible in advance of the meeting, then we will ensure that a written response is provided.

Please send your question(s) via email to: [board@cheshireandmerseyside.nhs.uk](mailto:board@cheshireandmerseyside.nhs.uk)

Primary Care Committee meetings are business meetings which, for transparency, can be held in public. They are not 'public meetings' for consulting with the public – we do this in a variety of different ways. Find out more about how we engage with work with people and communities across Cheshire and Merseyside.

Thank you for your interest in the work of the NHS Cheshire and Merseyside.
